## Mulder Design

Mulder Design has started building a 46-metre motoryacht at the Rossinavi yard. Naval architecture, exterior lines and interiors are all designed by the Dutch studio which has created a rigorous exterior visual effect. The style below decks and of the furnishings is the work of Studio Spadolini which has created a high-quality rational décor. There are apartments for 12 passengers and equipment for every pastime, including a gym. Launch is scheduled for summer 2012.
